Subject: Media Statement / Government Stakeholder Meeting Wednesday August 8th/ 2018

All,

Thank you for your time today – having an opportunity to hear your concerns and concerns of your community was invaluable. We appreciate the feedback.

Please see the attached media statement. We heard your significant concern that was raised today about the potential for the Ranson facility to use petroleum coke in the manufacturing process. ROCKWOOL is committing today, that we will Not use petroleum coke in the Ranson facility.

Matt, I apologize for the error, as your name does not appear on the participant list – we have sent a note to the press with this correction. Samantha, can you please send to Fred Durham and Sec. Caperton's office please.

Leslie
